

# Hollows Time Line

Estimated migrations from the ever-after: Elves: ~2000 years pre-Turn

Witches: ~5000 years pre-Turn

Ceri's installment as demon familiar: ~1000 years pre-Turn

Birth of Weres: ~6000 years pre-Turn

Birth of Vampires: Unknown

- 1953** Watson and Crick develop DNA Helix model.  
Collaborating with Rosalind Franklin, they turned Cold War funding to them instead of space and unconventional weapons, greatly advancing the understanding of genetic manipulation as the US develops genetic weapons instead of nuclear.  
Space exploration fizzles out.
- 1958** Rosalind Franklin continues her research, helping to push genetic understanding up twenty years and giving us a wealth of genetically produced drugs in the 60s.
- 1962** Genetic insulin becomes readily available.
- 1966-1969** Turn begins and ends, the T4 Angel virus transported by a tomato designed to feed the people of the third worlds.
- 1979** Ivy and Trent are born.
- 1980** Kisten is born.
- 1981** Rachel is born.  
Personal computers become available
- 1995** Trent and Rachel's fathers die  
Leon Barns quits the I.S. and is assassinated to keep his findings quiet.
- 1997** Rachel graduates HS and starts classes at 2yr school.
- 2000-2004** Rachel interns with the I.S.
- 2001** Ivy joins the I.S. as a full runner after graduating a six-year course of study.
- 2003-2004** Rachel and Ivy work together during Rachel's last year as an intern.
- 2006** Rachel quits the I.S.
